About Us

In 2000, we started the electronics industry with satellite systems under the name of IŞIK ELEKTRONİK company in Istanbul.

Since then, we have become one of the leading manufacturers in the sector by keeping up with technological developments and improvements.

Currently, thanks to our high production capacity, we manufacture television, monitor, satellite antenna cables, phone charging cables and phone chargers in addition to satellite systems.

For more than 20 years, our mission has been to provide our consumers with affordable products for 100% customer satisfaction without sacrificing quality. In this context, we adhere to the fair trade principle set by our founder, Mr. Fethullah Obut.

Our goal is to increase employment by increasing domestic production capacity. Currently, we contribute to the national economy with our wide domestic dealer network as well as exports to more than 40 countries.

Hey Google

Fobem | Google TVs take the entertainment experience in your home to a new level. With Google Assistant integration, your TV is not just a tool for entertainment but also your personal assistant. This smart TV, which you can easily control with voice commands, makes your life more comfortable and enjoyable.

Screen Mirroring

Fobem | Google TVs make screen mirroring easy with built-in licensed Chromecast. You can wirelessly connect your mobile devices and computers to your TV and enjoy watching your content on the big screen. Quickly and smoothly watch videos, games, and apps on your screen with just a tap!

Superior Sound Quality

Fobem | Google TVs provide a clear and powerful sound experience with Dolby Audio-supported stereo speakers. Thanks to the clear and powerful sound quality, movies, series, and music become more immersive, allowing you to hear every detail clearly and offering a surround sound experience. Enjoy the highest quality sound in your home!

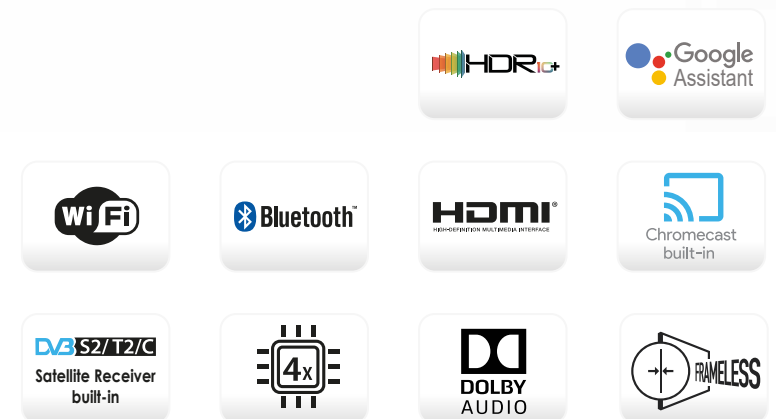

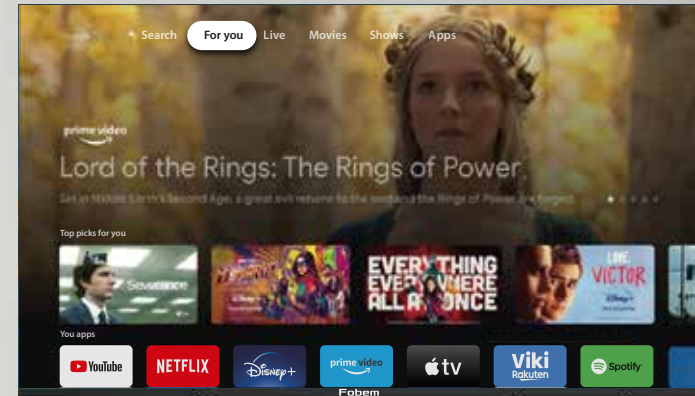

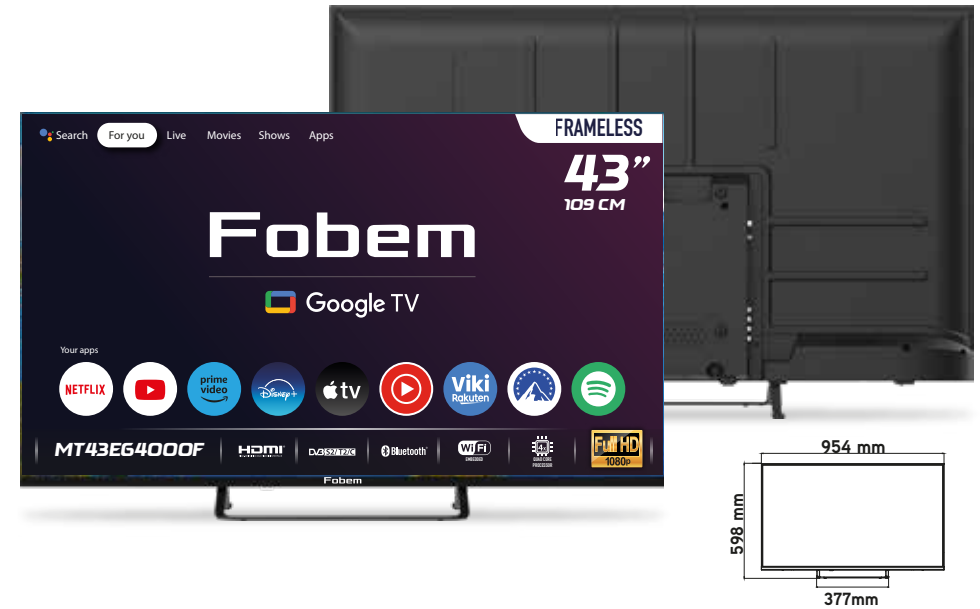

Stylish and Durable Metal Stands

Fobem | Google TVs combine stylish and durable metal stands that provide both aesthetic and sturdy support. The modern design fits perfectly with any interior. The metal stands enhance the stability of your TV, providing safe and long-lasting use.
